

## The Saks Store

We Shall Be Closed All Day Monday, Dec. 26.  
Open Evenings Until Christmas.

### Bird's-Eye View of the Big Store's Giveables.

A hint is as good as a volume of store literature these days—especially where qualities are trusted and prices are known to be at their lowest—as they are conceded to be here.

#### Smoking Jackets and Bath Robes.

By long odds the largest variety of these House Coats is to be found in our stock. We've Jackets from \$2.48 to \$22.50 and Bath Robes from \$2.98 to \$23.75. They are mostly exclusive styles, too, made expressly for us—by men for men. Today we shall put on sale some special lots that we can offer at prices lower than they could have been bought for a week or two ago. It's another of those chances that we always stand ready to improve for your benefit.

About twenty-five fine Imported Cloth, Kersey, Velvet and Matalasse Jackets, with plain and quilted linings. Actual values from \$10 to \$12.50. Choice—	35 English Worsted Jackets, shot with silk, in very neat novelty effect; bound with silk cord; laid lined and silk frogs. Choice is of three patterns—red, blue and white mixed—for	42 English Novelty Cloth and Eldorado Jackets, some bound with velvet and some with cord; cut to fit; good patterns, and have been exceedingly popular sellers at the regular price. They are worth \$2.50 to \$5, and we offer for the choice of the lot for
<b>\$5.98.</b>	<b>\$7.75.</b>	<b>\$2.48.</b>

For her—Changeable and fancy Silk Waists, stylishly made, with tucks and cords; extra good quality silk. Value \$6.75 and \$7.50. Choice—

For her—One of those new Parian Clusters, selected either from stock, or made to order—the swiftest garment of the season, and strictly new: worth \$15.00, for—

For him—A Tan Coat of Cloth Mackintosh, warranted waterproof, cut extra long, the same quality Coat that retails everywhere at \$5, for—

For him—A pair of those Dogskin Gloves, either lined or unlined, latest shades, each pair in a box: worth \$1.50, for—

For him—One of our Shaving Outfits, complete with Mug, Mirror, Soap, Toilet Water, Cosmetic, Razor and Strip. Face Powder: worth \$2, for—

For her—Skirt, Suit or Waist length cut from one of a dozen or more pieces of silk. Black and fancy effects, worth \$1.50 or \$1.75, for—

For her—A half dozen of Sheer Linen Handkerchiefs, with tautly finished embroidered initial: worth \$1.50 each—now, for six in a box—

For her—Choice of Taffeta Silk Umbrellas, elegantly mounted, with Dresden and Silver Trimmed Wood, Horn and Ivory Handles: worth up to \$10 (initials engraved free)

For him—English Gloria Umbrellas, mounted on steel rod, paragon frame, and silver trimmed natural wood handles; cover and tassel; worth \$1.25. Initials engraved free—

For him—English Embroidered English Web Suspenders, fancy effects, strongly marked with patent cast-off; worth \$5; each pair in a box—

For anybody—Box of Paper and Envelopes, in fancy octagon shaped box; superior paper, with wedding finish—

For anybody—Laundry Bags, pretty embroidered, with gold and silver to choose from; worth \$5, for—

For the family—Carved China Dinner Service, extra thin, with handsome underglaze decorations; each set, 12 pieces, worth \$12.95, for—

For the family—10-piece Toilet Set, with filled flowers on all pieces and gold ornaments; very attractive; worth \$2.48, for—

For the family—Banquet Lamps, with artistic designs; each globe to match; worth \$1.49, for—

**SAKS & COMPANY**  
Corner Penna. Ave. and Seventh Street.

**The Penalty of Impudence.**  
Frank Parris, the young man arrested Tuesday night for insulting Chow Tze-chi, second secretary of the Chinese legation, and two other attaches, as related in The Times, was yesterday in court sentenced to pay a fine of \$15, with the alternative of twenty days on the farm.

The gentlemen from the legation failed to appear against Parris and he was prosecuted by Policeman Warren, who made the arrest.

**Young children, to avoid marasmus, scrofula, or rickets, and develop healthy tissues, bones and teeth, need fats and hypophosphites. Dr. W. Gilman Thompson, Prof. Materia Medica and Therapeutics, in the University of New York, asserts that Cod-liver Oil is the best fat for the purpose.**

**Scott's Emulsion is cod-liver oil partly digested and combined with hypophosphites, it gives children material for rich blood, solid flesh, bones and teeth.**

See and \$1.00, all druggists.  
SCOTT & BOWNE, Chemists, New York.

## THE GRIP IS EPIDEMIC

A Great Demand for the Family Physician.

THOUSANDS ARE AILING

Unfavorable Weather Conditions—Eight Per Cent of the Police Force Ill—Prominent Men Attacked—Department Store Forces Depleted—Important Facts About Influenza.

Epidemic influenza is again prevalent in Washington. For the first time in nearly a decade, the malady has prostrated a very considerable proportion of the entire population of the city, and the public is beginning to feel alarmed. The word "grip" is again on the public lip. Those who are not suffering within the dread grasp of the grim disease, are fearful lest they be the next stricken.

The local list of grip patients numbers several thousand, and with the present disagreeable and unfavorable weather conditions, there is little prospect of any decrease in the near future. Physicians say they never were so busy, while druggists rub their hands, and smile at the sudden boom in the quinine trade. Almost everybody is coughing and sneezing. In some cases whole families are sufferers.

Many Policemen Ill. Eight per cent of the Metropolitan police force is down with the disease. The wet, damp, murky night air of the past fortnight has gone against the patrolmen, and those who have escaped its evil effects congratulate themselves and sympathize with their less fortunate brothers.

Secretaries Hay and Long were unable to attend the Cabinet meeting yesterday. They have the grip. Assistant Secretary Allen, of the Navy Department, is a victim. Justices Bingham and Cox, of the Supreme Court of the District, have been ill since Monday.

Grip is generally conceded to be an infectious disease, due to the influenza bacillus. But doctors disagree on this point. In cases of grip, or influenza, it is claimed, this organism is present in the secretions of the nose, throat and bronchial tubes, to person through the taking in of these organisms, either from direct contact or after the secretions have become dry and pulverized, and are inhaled in the form of dust. It is stated that the disease cannot be produced by any other cause than the influenza bacillus.

Many catarrhal affections of the respiratory tract are improperly called grip. For this reason it is often difficult to tell the milder forms. The real article is a much more serious affection. It produces a general depression. A more tedious convalescence follows. The malady spreads like wildfire. Large numbers of people are affected because of a lack of definite diagnosis and laxity, or indifference, in the matter of isolating patients. The records of the health office have nothing to show just how prevalent the disease may be owing to the fact that provisions are not made to combat it as in the case with contagious diseases like smallpox, diphtheria and scarlet fever. No deaths have yet been recorded.

**Symptoms of the Grip.**  
Influenza starts with chills, which are followed by a slight rise of temperature, pains in the head, bronchial irritation and a troublesome cough. These symptoms are accompanied by muscular pains and general lassitude. In the more severe forms the patient is forced to take to his bed. In milder cases the victim may turn to his daily work, but only under great stress of suffering.

He or she is harassed by a cough, bronchial irritation and intermittent headaches. There is a constant source of danger in large office buildings and all places where a large number of persons use the same toilet.

Influenza or grip made its appearance here in 1889. It had been prevalent for some time in Europe, which it had invaded from the direction of Russia. In that country it was said to have come from the East, and it is stated that the epidemic in Chile along the banks of the Yellow River, where there are frequent inundations, and where it is looked upon as a marsh fever.

The last period of the epidemic was in 1878, forty years before, and it therefore descended in 1889 upon a new generation, which had no opportunity to become immune from it. Consequently the first onset in 1889 was severe. Since 1889, when there was a second and more fatal onset, the severity of the disease has been gradually declining.

**The Health Report.**  
The weekly health report issued by the District health office yesterday makes no mention of the epidemic. It follows: "There were 18 deaths in the District during the past week, as compared with 119 in the week before. Of those who died 71 were white and 47 colored. The annual death rate for each 1,000 of the whole population was 21.6, that for the whites being 22.28 and for the colored 21.4."

"The deaths from diseases of the nervous system numbered 15, the same as by the last report; those from heart affection rose from 10 to 11; those from the kidneys from 5 to 11. There was a decline of 4 in the mortality of consumption, and an increase of 17 in acute lung diseases, of which 15 were pneumonia. There were 7 fatal cases of diphtheria and 1 of typhoid fever."

"At the close of last report there were 122 cases of diphtheria under treatment in 38 premises. During the week 36 new cases occurred and 41 were relieved from quarantine, leaving 116 cases in isolation in 34 premises."

"Of scarlet fever there were 129 cases in quarantine in 114 premises. The new cases reported during the week numbered 32, and 41 were discharged, leaving 127 cases and 109 premises with warning cards."

"The mean weather conditions prevailing during the week were: Barometric pressure, 30.09; temperature of the air, 29 degrees; relative humidity, 64. The rainfall was .29 of an inch, with southerly winds averaging 4 miles per hour and reaching 16 miles per hour on the 13th. The thermometer registered 12 degrees on the 14th, rising to 49 degrees on the 18th."

## DETECTIVES CHANGED

Several Recommendations Made by Major Sylvester.

The expected changes in the Detective Bureau, exclusively told of in The Times several days ago, were brought about yesterday when Maj. Sylvester recommended to the Commissioners that Detective Joseph Carter be made acting sergeant, in the capacity of night inspector of detectives, and that Precinct Detective George Boyd be permanently detailed at headquarters to fill the vacancy made by the promotion of Carter.

These changes were at the time of their publication in The Times denied by a morning contemporary. Detective George Boyd had been doing duty at the Second precinct station until recently detailed temporarily at the Detective Bureau, under Inspector Boardman.

He is regarded as one of the brightest and keenest men in the profession, and enjoys an extensive reputation as an all-around and capable detective.

Night Inspector Carter was, until recently, engaged in the United States district attorney's office, and was brought back to headquarters when Inspector Mattingly retired. At that time it was stated exclusively in The Times that Carter would be made night inspector. Inspector Carter is one of the oldest detectives in the service, and is looked upon as one of the ablest. He has been the champion of the Sixth precinct, the cleverest criminals in the country, and is not only well but favorably known throughout this country. Both his appointment and that of Boyd meet with unanimous approval. The appointments will take effect on the 1st of January.

Major Sylvester also issued an order yesterday transferring Patrol Der Coughlan, of the Sixth precinct, to the Ninth, vice Patrol Driver Cleveland, of the Ninth precinct, removed to the Sixth precinct.

## THREE ESTATES BEQUEATHED.

The Disposition of Margaret J. Winship's Property. Three wills were yesterday filed for probate. In her last testament, dated December 20, 1890, Ellen E. Dyer makes the following disposition of her estate: To her daughters, Margaret, Ellen and Sarah Dyer, and Rosalie M. Moffatt and Mary A. Sator, all heirs at law, the real estate, she also divides among her children eight shares of stock in the Bank of Washington and a promissory note of D. Webster Prentiss for \$5,000.

The will of Mary R. Throckmorton, dated August 3, 1892, leaves all the property, real and personal, of the deceased to her grandson, Wickliffe Throckmorton. This is done, says the testatrix, with the full knowledge and consent of her son, Charles B. Throckmorton, the father of the beneficiary.

Margaret J. Winship, by her will, dated May 24 last, disposes of her property as follows: To her son, John S. Winship, \$1,000 and some furniture; to her daughter Mary, \$1,000 and furniture; to her son William, \$1,000; to her daughters, Victoria E. Leitch, Isadora J. Lewis, and her son, Henry C. Winship, \$1,000 each; to William W. Winship, real estate known as "Duck Island" in Duck Island Harbor, on Long Island Sound, "Mill Site" ten acres in Middlesex County, Conn., and four lots in Grove Beach, on Long Island Sound. The residue of her real property she divides among her other children.

## A MIRACULOUS ESCAPE.

Mrs. Thomas J. Murray Shot at While in the Havana Prado. While walking in the Prado in Havana Monday evening with her husband, Mrs. Thomas J. Murray, the wife of a former Washington lawyer, was shot at by an assassin, who escaped in the darkness.

The bullet was deflected by a corset stay, passed half around Mrs. Murray's body, under her clothing and lodged in an outer garment. She was unharmed, but was prostrated.

It is thought that the would-be assassin is a lunatic. Mrs. Murray several times had thought that she was being followed.

**Interior Department Changes.**  
Changes have been made in the Department of the Interior as follows: General land office—Promotions: Richard M. Towson, of Virginia, clerk, \$1,200 from \$1,000; John T. Shadle, of Illinois, clerk, \$1,000 from \$800, Pension office—Reinstatement: Joseph M. Donald of California, clerk, \$800, Promotions: Edward Pitts, of Ohio, clerk, \$1,200 from \$1,000; Arthur L. Evans, of Minnesota, clerk, \$1,000 from \$800, Resignation: Sherman Williams of Texas, clerk, \$1,200. Office of Indian affairs—Appointment by transfer from Treasury Department: Charles H. W. Searles, of Indiana, clerk, \$1,000; Promotions: Millard E. Hearn, of Maryland, supervisor of schools, \$1,200 from \$1,000; Edward B. Fox of District of Columbia, clerk, \$1,000 from \$800; W. H. Patterson, of Colorado, clerk, \$1,200 from \$1,000; Reinstatement: James H. Colwell of Pennsylvania, fourth assistant examiner, \$1,200; Reinstatement: Mary G. Wilmarth of Pennsylvania, \$700. Geological survey—Appointments: Miss Mary G. Wilmarth of Pennsylvania, stenographer, \$50 per month; Miss Lida E. Austin of Alabama and Miss Bertha M. Jones of Oregon, copyists, \$50 per month.

**Knowledge is power.** There is no power and no prestige in the hands of a woman. It is the knowledge of her own nature, her own physical make-up and the home treatment of diseases peculiar to her sex. There is a great home medical book that teaches the woman how to take care of herself. It is Dr. Pierce's Common Sense Medical Adviser. Over 1,200,000 American homes contain copies of this book. It is used to cost \$1.00 now it is free. For a paper covered copy send 21 one-cent stamps, to cover mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y.; French cloth binding, 31 stamps.

This great book tells all about a medicine that is an unfailing cure for all weakness and disease of the delicate female system. It is Dr. Pierce's Favorite Prescription. During the past thirty years many thousands of women have been cured of their various ailments. It imparts health, vigor, vitality, strength and elasticity to the organs that bear the burdens of maternity. It is for the food and blood of the system. It is a great tonic and a great restorative. It is a great cure for the coming of baby easy and almost painless. It is completely safe and the pain and misery that are the result of a woman's neglecting her womanly health. An honest medicine dealer will give you what you ask for, and not try to persuade you to take some inferior substitute for the little added profit he may make thereon.

Mrs. Jas. Schaffer, of Freemansburg, Northampton Co., Pa., writes: "It is with pleasure that I write to let you know that the great good I have received from your medicines and the local self-treatment at home. I was troubled with a female weakness, but I was back all the time, sometimes so severe that I could not sit in bed at night. I tried many doctors, but they could not help me. Then my husband got Dr. Pierce's Common Sense Medical Adviser, and I began to feel better. I took six bottles of the 'Favorite Prescription' and I feel like a new woman."

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good."

## Our New Credit Way.

Our New Credit Way.

## Our Jewelry Purchase

is the talk of the town. It has outstripped all other purchases. It's a transaction that has firmly imbedded itself in the minds of the Washington public, and will forever be known as one of the jewelry sales of the year. ## A THIEVING DOMESTIC.

Arrested for Kissing Her Employer's Pocketbook. Detectives Parham and Phillips yesterday morning arrested Mary Johnson, a colored woman, twenty-one years old, for the larceny of \$30 from John H. Gallagher, of No. 127 D Street northwest. Mary had been employed at the Gallagher home but one week when she abstracted a ten-dollar bill from a pocket book lying on a table in a bed room.

The woman stated to the detectives that she had been taking \$1.00 a week when she discovered the extent of her theft she became frightened and disposed of the bill of a larger denomination in the bath room.

Some time ago the Johnson woman stole a ten-dollar bill, and when detected swallowed it. She was committed to jail yesterday and will be brought into court this morning for trial.

## Held for the Grand Jury.

In the Police Court yesterday, Samuel Stevenson, alias Sambo, John H. Watson, alias Lefty, and Moses Kelly, alias Seneca, were held to await the action of the grand jury in \$500 bond, on the charge of housebreaking. The robbery was committed on December 11 at Keouli's grocery store, corner of Fourteenth and E Streets southeast. On December 13 Officers Morgan and Buckley, of the Fifth precinct, arrested them on the charge of suspicion. They afterwards confessed, and admitted four other robberies. It is thought that these arrests will put a stop to the many petty robberies in the southeast.

## To Revoke His Appointment.

The appointment of William Downs as policeman will probably be revoked on account of the testimony in the case of J. Fitzgerald, a private of class 2, who was proved guilty of unbecoming language, disclosing interference with an officer on the part of Downs. Major Sylvester has recommended that Downs's appointment be revoked and the indorsement has been approved by Commissioner Wright.

## The Trial of Frank H. Miles.

It is expected the case of the United States against Frank H. Miles, who is charged with embezzling the funds of the District, which was postponed on Monday on account of the illness of Chief Justice Bingham, who is presiding at the trial, will be resumed today, in Criminal Court No. 1.

## Held to the Grand Jury.

James H. Isaac yesterday filed a petition for divorce against his wife, Susie C. Isaac, alleging drunkenness and infidelity as the grounds. The parties were married in June, 1886, and have two children living.

## Commissioners' Orders.

The District Commissioners have issued orders as follows: That the contract for improving Connecticut Avenue west of Rock Creek is awarded to E. G. Gummel at the prices named in his proposal, received December 17, this being the lowest proposal received. That the contract for reconstructing a portion of the plumbing system of the Grant School Building is awarded to Edward J. Hearn at the price named in his proposal, received December 17, this being the lowest proposal received. That the proposal of the Albemarle Stone Company to furnish and deliver an Alameda store floor slab and riser for the Toner School Building for the sum of \$25.15 is hereby accepted. That a three-inch water main be laid to supply cistern at Tenth and D Streets northwest, and a four-inch water main be laid to supply cistern at Seventh and C Streets northwest, at an estimated cost of \$55.

## Two Pointed Questions Answered.

What is the use of making a better article than your competitor if you cannot get a better price for it? And—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best? If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by Henry Evans, Wholesale and Retail Druggist, 303 F Street northwest, and Connecticut Avenue and S Street northwest, and 1423 Maryland Avenue northeast.
